

Martin Lampl
M.D.T.

Martin Lampl is a master dental technician from Austria, practicing 3rd generation dentistry with experience of more than 30 years.

Together with his brother Stephan Lampl he built the perfect team in developing treatment solutions and lecturing in the field of bio-esthetic and functional dentistry as well as full mouth / CMD rehabilitation.

Due to their experience and wide ranging of documented clinical cases, they founded edelweiss dentistry and invented the edelweiss system to bring tomorrow's better dentistry of today.

Abstract
